

Tim Handley

For

SSF Faculty Convenor!

Hi, I'm re-standing for Social Sciences (SSF) Faculty Convenor... I'm a 3rd year law student, who is committed to achieving results, and representing others. I was elected SSF Faculty convenor last year, and wish to continue in this valuable role. I've sat on union council since my first year,, as well as various university and union committees, and am actively involved in representation within the union and the university...

Open, Available and Accessible:

Things that happen within **your** university, faculty and union should be open and accessible to you, the students it affects. To this end, I will continue to be available to and listen for **any** SSF student, and continue to email out to all SSF students key information on what's happening in **your** faculty, in a clear, jargon free format!

The following schools are in the SSF Faculty:
-DEV - LAW- ECO- NBS- EDU -SWK

Supporting YOUR School Reps

Being a school rep can sometimes be a difficult task. I will continue to meet with school reps frequently to offer help and support, provide an active link between them and the union and to answer any questions!

Representation

Every student is entitled to representation within **their** university! It will be my role to represent every SSF student's academic needs on faculty committees. I will continue to liaise with school reps, and, where appropriate every student in the faculty to ensure I am representing YOUR needs on faculty level committees.

The Benefit of Experience!

I have already:

- Built up contacts in the Faculty and schools to enable me to help resolve issues quickly and easily.
- Gained experience on the faculty level committees, and thus won't feel daunted by them!
- Have a proven method of communicating with SSF Students and School Reps!

I will work with your School reps and the Union Academic officer to ensure that any academic issues within your faculty are resolved quickly, liaising with school and faculty staff.
